

Ministry of Statistics and Programme Implementation MoSPI Guidelines

Stratified Multi-Stage Sampling Design for Socio-Economic Surveys

In national level sample surveys Census Villages act as First Stage Units FSUs in rural sectors

Urban Frame Survey UFS blocks serve as FSUs in urban areas

Data Quality Frameworks mandate verification of non-sampling errors and non-response bias

Field investigators collect primary schedule data using tablet-based CAPI applications

Quality assurance procedures require field inspection and back-checking of 10 percent samples
